

# INTERNET SAFETY FOR PARENTS

When: Thursday, April 20<sup>th</sup> at 6:30 p.m.

Where: Hillwood Middle School

**Digital citizenship. Personal and Internet safety. Cyberbullying.** Keeping up with the latest apps and websites and teaching kids how to stay safe online and in the real world is a daunting task, even without the time demands placed on parents and educators. Unfortunately, the most dangerous environment kids are in is the one right on the computers and phones in their own home, and we must do more to keep children safe. The National Center for Missing & Exploited Children Texas Regional Office (“NCMECTX”) is here to help.

On Thursday, April 20<sup>th</sup>, NCMECTX will provide a presentation for parents discussing the apps and websites kids are using, how to identify warning signs of kids engaged in risky behavior online, and how to discuss appropriate online behavior with kids. Topics include cyberbullying, sexting, sharing too much information online, online privacy, and abduction prevention.

**Real Stories. Real Impact.**

Due to the sensitive nature of this presentation, children of any age are not permitted to attend.
